

1st day: Arrival & installation to the accommodation & depending the time of arrival relaxation around the pool & a welcome drink or small visit in the city of Messolonghi & cycling in the area of Tourlida. 2nd day: Hiking in Arakinthos

Arakynthos is a low mountain with altitude 982m to the north of the town of Mesolonghi, acting as a natural boundary between Patraikos Gulf and the lake Trichonida, which is found to the north of the mountain. Due to his texture, Arakynthos is especially significant for the birds of the area from an ecology point of view. In Arakynthos one can come across interesting canyons & extensive oak and chestnut forests.

A network of trails has been detected, mapped and signed in Arakynthos. These trails constitute parts of a wider network of trails used since the ancient times. Although their age has not been accurately determined, archaeological findings indicate that the area has been inhabited since 2,500 AD and that the morphology of the terrain has not changed to such as extent as to justify new opening of trails. On these trails you can hike & mountain bike..
